

Energy Management Policy

Policy Statement:

Patrolsec Ltd is dedicated to improving our energy and water usage to enhance energy efficiency, reduce CO2 emissions, and save money. We are committed to reducing the environmental impact of our activities while using energy and water resources wisely.

Objectives:

Our goal is to decrease energy consumption by 25% compared to the 2018 baseline. We aim to reduce energy and water usage by 15% in the first year and achieve an additional 10% reduction over the following two years.

Management Commitment:

- Allocate management resources to implement this policy.
- Develop and follow an Energy Reduction Action Plan.
- Identify and implement cost-effective energy efficiency measures.
- Provide regular management reports on energy and water consumption and associated costs to senior management.
- Report energy and carbon savings to relevant authorities.
- Periodically review and revise energy reduction targets.
- Ensure staff have the competence to manage energy efficiently and seek advice from experts.
- Promote professional development on energy-related issues.
- Incorporate carbon saving and sustainability into the company's curriculum whenever possible.

Responsibilities of All Staff:

- Identify and report actual energy performance to Patrolsec Ltd and the broader community.
- Set and report on future energy performance targets.
- Designate staff as energy champions for Patrolsec Ltd.
- Encourage energy-saving suggestions from all staff.
- Take daily responsibility for minimizing energy and water waste and encourage others to do the same.

We will communicate this policy to all Patrolsec Ltd users and make it available upon request.

The Managing Director shall review this policy annually or following significant changes.

M. Naeem

Patrolsec Ltd.
