

## **Waste Management and Recycling Policy**

### **General Statement:**

Patrolsec Ltd is firmly committed to maintaining environmentally responsible practices throughout our business operations. Our primary intention is to reduce waste production, adopt sound purchasing practices for materials, and promote the reuse and recycling of materials wherever feasible. We are dedicated to fulfilling our environmental and waste management responsibilities. To minimize waste and encourage recycling, we will implement systems and procedures. All employees are expected to follow these procedures and cooperate with the management in executing this policy.

### **Specific Aims:**

As part of our commitment to environmental protection and waste reduction, we have adopted the following specific aims:

1. Foster a work culture that prioritizes waste management, waste minimization, and the reuse and recycling of materials when practical.
2. Promote material economy, particularly regarding paper use, print formats, and document styles in our offices.
3. Advocate the use of recycled/reclaimed materials, sustainable sources, and materials suitable for recycling. We favour suppliers who adhere to sound environmental principles.
4. Minimize waste by encouraging the exchange and reuse of equipment and materials across departments and on construction sites.
5. Develop waste management strategies that include recycling procedures and schemes.
6. Encourage office and site employees to initiate and support recycling schemes relevant to their activities.

### **Future Recycling:**

We are committed to expanding our recycling efforts. In the future, we will develop and implement procedures for recycling other types of waste, which may include:

- Recovery and recycling of ferrous-based materials.

The Managing Director shall review this policy annually or following significant changes.
